Shane created an individualized rehabilitation program for me, so I could get maximum use of my new knee. I appreciate the fact he asked for my input in terms of goals. In no time, he had me back out on the golf course. —*David Boelter, Fond du Lac*

In addition to back, neck, ankle and knee issues, I've gone to Shane for balance problems caused by vertigo. He is the only physical therapist in town that knew how to do what my doctor specified for treating it. He is extremely knowledgeable. —*Delila Gremminger, Fond du Lac*
