

Welcome to Bauer Physical Therapy, LLC, where your care is always personal and individualized, and you will always know your therapist: Licensed Physical Therapist Shane Bauer.

That's the Bauer patient care difference: an independent, locally owned practice with years of success based on providing excellent, timely care with a personal touch not available at other places.

Bauer Physical Therapy is founded on the principle of making each patient a priority. Shane Bauer believes in a moral and professional obligation to assure each patient receives the highest level of care possible. With more than 20 years of experience, Shane Bauer draws on his specialized training in hands-on therapeutic interventions that include spinal and extremity manipulation, non-thrust mobilization, myofascial release, dry needling, and advanced exercise prescription. *(LINKS? May want to make the words here identical to the services links.)* Your physical rehab will focus on treatment specific to your injury or ailment

Medical care in many places has become less personal: Cuts in reimbursement and increased control over the referral of physical therapy services by insurance companies has drastically changed service delivery in most places over the last decade. The creation of a corporate healthcare environment in other clinics has led to more patient care being delegated to less qualified staff. Yet, optimum outcomes are achieved more quickly and reliably with one-on-one care by a licensed physical therapist.

Bauer Physical Therapy has continued in the tradition of delivering personal care, underscored by the belief that one-on-one guidance and direction by a highly experienced expert is a vital step in safe and effective rehabilitation.

Bauer PT office staff also provides highly personable service, and will make sure you are updated on the status of your insurance and your appointments. You do not need a referral to receive care here; your primary care physician can be kept updated on your health situation as you prefer and request.

Come to Bauer Physical Therapy, where Licensed Physical Therapist Shane Bauer will truly take care of YOU.
